

Call for Symposium Proposals  
2017 ACS Fall National Meeting  
August 20-24, Washington, DC

September 8, 2016

Dear Colleagues,

Happy Back-to-School! As many of you know, Dion Dionysiou accepted the role of Chair-elect for the Division of Environmental Chemistry, and I have assumed the role of Fall National Meeting Program Chair. While these are large shoes to fill, I know that with your support ENVR will continue to have some of the most vibrant programming in the American Chemical Society.

With that, the call for Symposium Proposals for the Fall 2017 ACS Meeting is now open, **through October 31, 2016**. Proposals for symposia that highlight research in all areas of Environmental Chemistry and Engineering are most welcome, especially those of interdisciplinary approaches to solving environmental issues. Symposia that align with the national meeting theme (Chemistry's Impact on the Global Economy) are highly encouraged.

To insure that we have all the information necessary to build a strong meeting agenda, please submit your proposal using the online form at:

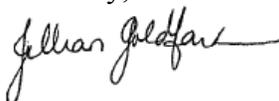

[https://bostonu.qualtrics.com/SE/?SID=SV\\_6EyY8lWu3xmPyqF](https://bostonu.qualtrics.com/SE/?SID=SV_6EyY8lWu3xmPyqF)

or by returning the Symposium Proposal word document on the website to me **no later than October 31, 2016** so it can be announced in C&EN News.

I will contact organizers to confirm acceptance and/or amend proposals by November 18.

Thank you in advance for your continued support of ACS ENVR. If you have any questions, I can be reached at [jilliang@bu.edu](mailto:jilliang@bu.edu) and (617) 353 3883. For questions concerning upcoming Spring National Meetings, please contact Sherine Obare at [sherine.obare@wmich.edu](mailto:sherine.obare@wmich.edu).

Sincerely,

Jillian Goldfarb  
ACS ENVR Fall Meeting Program Chair  
Research Assistant Professor  
Materials Science & Engineering, Mechanical Engineering  
Boston University
