

CALL FOR SYMPOSIA
DIVISION OF ENVIRONMENTAL CHEMISTRY
American Chemical Society, 253rd National Meeting, April 2-6, 2017
San Francisco, California

Dear Colleagues,

We are now accepting proposals for the **253rd American Chemical Society National Meeting** to be held in San Francisco, California, April 2-6, 2017. I invite you to join the meeting of the Division's spring meeting by organizing a symposium:

- Applying the San Francisco meeting theme: *Advanced Materials, Technologies, Systems & Processes*
- Emphasizing water-related environmental issues and innovative approaches to water treatment and conservation, given the location of our meeting in the State of California.
- Exploring future innovations in environmental chemistry and engineering
- Combining ENVR and other divisions or organizations to develop interdisciplinary approaches to solving environmental issues
- Covering general areas of environmental chemistry, science and engineering

If you are interested in organizing a session, send a brief description of your proposal using the online template to either Spring Program Chair. In order for your symposium to be announced in *C&E News*, we will need your information by **June 27, 2016**. Symposia added after that date will be publicized on the Division's website only.

ENVR Spring Program Chairs
